LOA	50 ft.	LOD	34 ft.	Beam	12 ft.	Draft	6ft 6 3/4 in	Disp.	32,000 lbs.

General Comments
 At the time of its introduction in 1965 this was the world's largest production GRP sailboat! The classic beauty, exceptional comfort and race performance made this yacht a total success. Winning her class in the 1966 Chicago-Mackinac race and first overall in 1967. She also won her class in the 1967 Transpac and Newport to Ensanada races. With almost 50% ballast ratio yet moderate draft, the Clumbia 50 is an outstanding example of the blend of comfort and performance.
